Completing downloaded entry form(s)

1.When you download an entry form from the web site, save it using "save as" to your pc etc.

2.Then edit the allowed fields shown in blue. (Name, address, age and details requested)

3.When you have completed editing, save again.

4.Send the edited document to the entries@britishpistolclub.org as an attachment.

We have received several blank forms so hopefully this will avoid that.

If you have any queries, then email the above address and we should be able to help.
